Look for this eco-friendly logo throughout the flyer. Products shown with this logo have "green" features, such as saving water or energy. This useful information will help explain the importance of "going green." Remember "going green" is not only important for environmental reasons, but also a great way to market your company and save on operating costs! Consumers are becoming

more conscious about products and services that reflect the growing eco-friendly movement. Discover why "going green" will benefit the environment and become an important marketing tool for your company!

Save Energy

Become aware of your energy consumption.

Save Water

Restrict your water usage.

Reduce, Reuse, Recycle

Reducing your food waste will greatly reduce your environmental impact.

Control Waste

Plan ahead to avoid over-production and to reduce the quantity of expired items.

Educate Your Staff

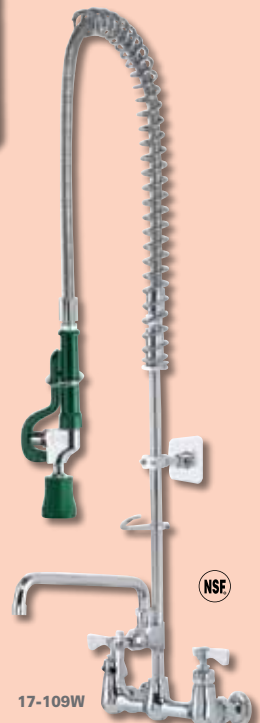

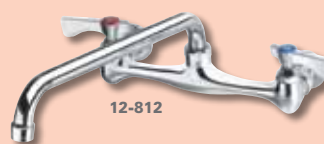

Establish an environmentally friendly program for your employees.
